

Human-Environment Interaction

How do you affect
your environment
everyday?

- As the seasons
change does your
impact on the
environment change?

Human-Environment Interaction

How does the environment
affect people?

Depending on your cultural background and technological resources the environment means different things to different people

Human-Environment Interaction

- When we study Human-Environment Interaction we look at all the effects (both positive and negative) that occur when people interact with their surroundings.

- How can we modify our environment?
 - Bringing water to our homes
 - Clearing land for farms
 - Any other ideas?

Human Environment Interaction

- How do we adapt to our environment?
 - Wearing suitable clothing (summer vs. winter)
 - Heating / cooling our homes
 - Any other ideas?
