

Rhyming Butterflies

This set contains 28 pairs of puzzles with CVC rhyming words. Includes color and black and white versions. There is also one blank template to be customized if desired.

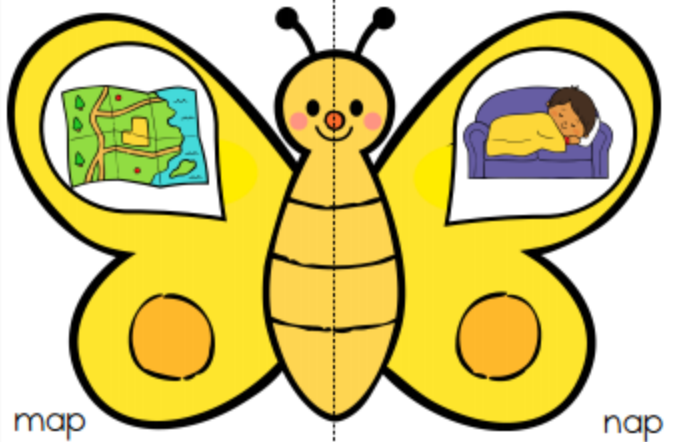

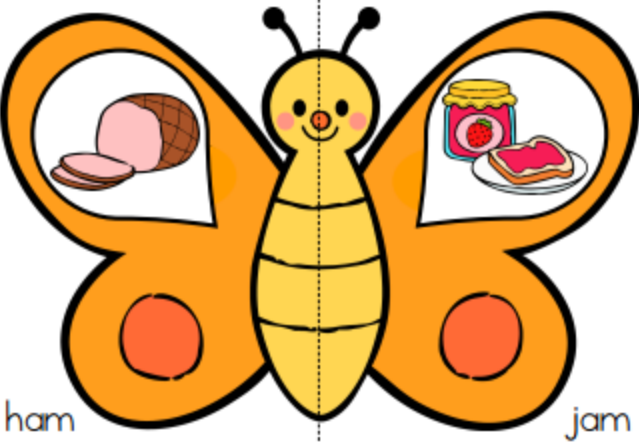

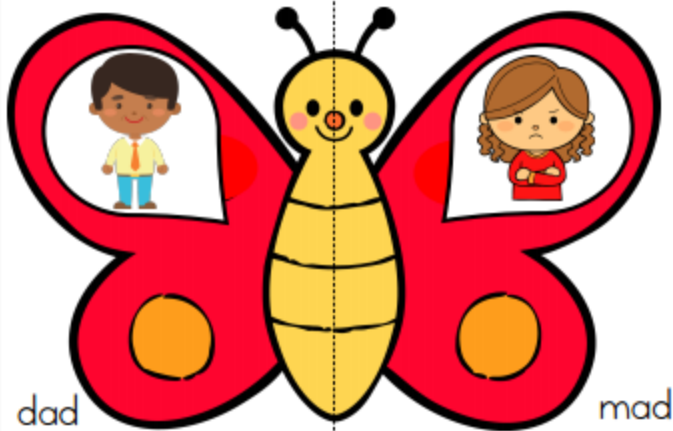

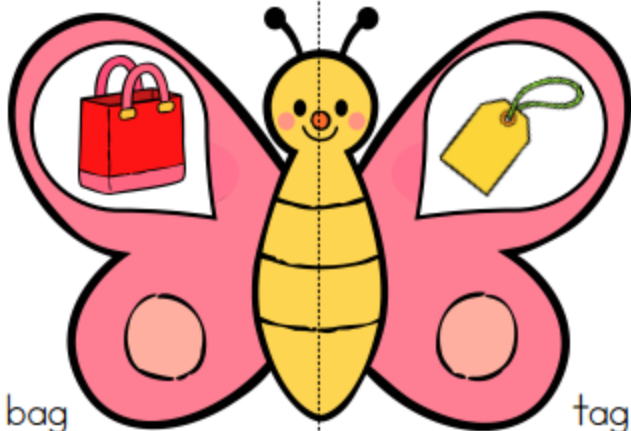

Prepare

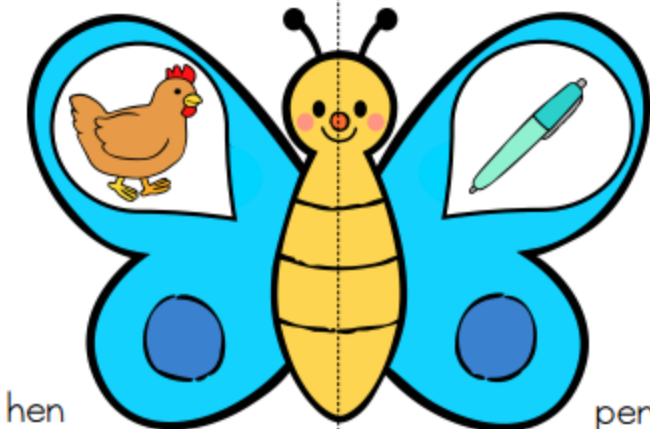

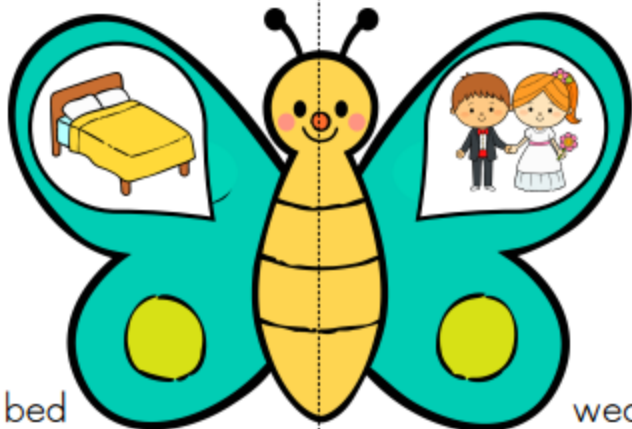

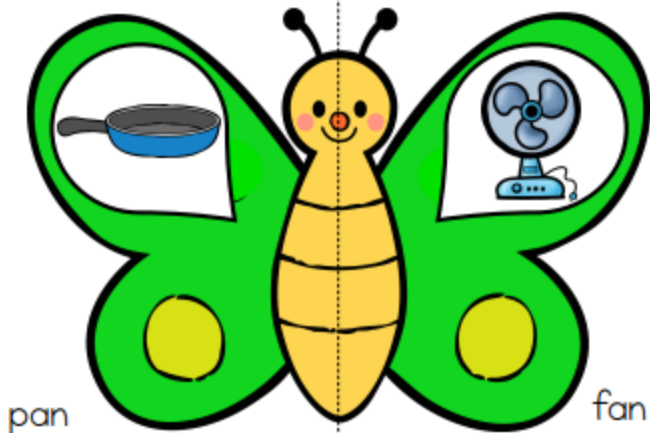

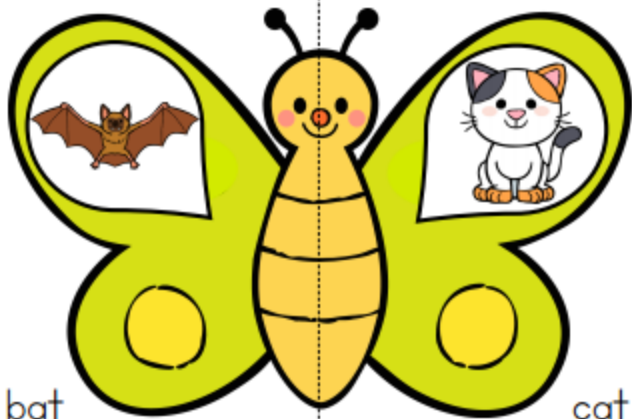

Choose color or black and white, and print the puzzles. Cut apart on dotted lines, and laminate if desired.

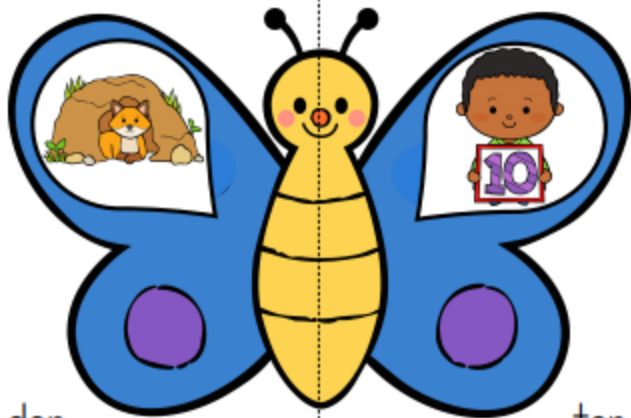

Play

Students put puzzles together by finding each rhyming pair. For extension, students can write rhyming words and add other words that rhyme with each pair. To scaffold for beginning students, give fewer puzzle pieces or color code each pair.

Enjoy!
